INDEX OF SUBJECTS

A

Abortion, infection after, after treated chlamydial infection (Osser & Persson), 84
Acquired immunodeficiency syndrome. *See also* Human immunodeficiency virus, infection with
  health education for, in young people (Leslie-Harwit & Meheus), 15
  historical parallels with syphilis (Bibel), 201
Acridine orange stain, for *Trichomonas vaginalis*, comparative evaluation of (Bickley et al.), 127
Acyclovir, oral, and viral shedding in genital herpes (Straus et al.), 107
Adolescents
  female, *Chlamydia trachomatis* screening for (Fortenberry & Evans), 168
  health education for (Leslie-Harwit & Meheus), 15
Anal gonorrhea, enoxacin for (Romanowski et al.), 190
Appointment keeping, and educational intervention (Blonna et al.), 198

C

Ceftriaxone, for gonorrhea, vs. enoxacin (Pabst et al.), 148
Cellini, Benvenuto, Reiter's disease in (Anderson), 47
Cervicitis, gram stain for, in chlamydial infection screening (Katz et al.), 103
Chlamydia trachomatis infection
  clindamycin and ibuprofen for (Blanco et al.), 192
  condom protection from, in vitro evaluation of (Judson et al.), 51
  diagnosis of, Papanicolaou smear in (Arroyo et al.), 11
  and postabortal infectious morbidity (Osser & Persson), 84
  in pregnancy, treatment of (McNeeley et al.), 60
  screening for
    in adolescent females (Fortenberry & Evans), 168
    cost effectiveness of (Estany et al.), 21
    gram stain of endocervical secretions for (Katz et al.), 103
    proportional payment for (Nettleman & Jones), 36
  screening, diagnosis, and treatment of, in family planning clinic, incremental cost of (Begley et al.), 63
  of Vero cells, with superimposed herpes simplex 2 infection, electron microscopic study of (Pontefract et al.), 74
Ciprofloxacin, for nongonococcal urethritis (Perea et al.), 7
Clindamycin, in murine chlamydial salpingitis (Blanco et al.), 192
Clinic records, computerization of (Hart), 1
Compliance, and educational intervention (Blonna et al.), 198
Computerization, of clinic records (Hart), 1
Condoms
  in vitro evaluations of (Judson et al.), 51
  use and use-effectiveness of, in high-risk groups (Darrow), 157
Culture, for *Trichomonas vaginalis*, comparative evaluation of (Bickley et al.), 127
Culture media, for *Haemophilus ducreyi* (MacDonald et al.), 88
Cytomegalovirus, guinea pig, intravaginal inoculation with (Barron et al.), 41

D

Direct fluorescent antibody test
  monoclonal antibody, for *Neisseria gonorrhoeae* (Cavicchini & Alessi), 195
  for *Trichomonas vaginalis*, comparative evaluation of (Bickley et al.), 127

E

Education
  health
    and appointment keeping and medication-taking compliance (Blonna et al.), 198
    for young people (Leslie-Harwit & Meheus), 15
Enoxacin
  for anal and pharyngeal gonorrhea (Romanowski et al.), 190
  for gonorrhea, vs. ceftriaxone (Pabst et al.), 148
  for urogenital gonorrhea (Albrecht et al.), 114
Erythromycin
  for chlamydial infection, in pregnancy (McNeeley et al.), 60
  for nongonococcal urethritis, vs. ofloxacin (Ibsen et al.), 32

F

Family planning clinic
  HIV infection risk factor assessment in, vs. STD clinic (Wasser et al.), 178
  incremental costs of screening, diagnosis, and treatment of gonorrhea and chlamydia in (Begley, et al.), 63
Fluorescent antibody test. *See* Direct fluorescent antibody test

G

Genital ulceration, in Rwanda, etiology of (Bogaerts et al.), 123
Gonorrhea. *See also* Urethritis
  anal and pharyngeal, enoxacin for (Romanowski et al.), 190
  diagnosis of, Gonozyme for (Thomason et al.), 28
  enoxacin vs. ceftriaxone for (Pabst et al.), 148
  prevalence of, in Maryland prisons (Ellerbeck et al.), 165
  screening, diagnosis, and treatment of, in family planning clinic, incremental costs of (Begley et al.), 63
  urogenital, enoxacin for (Albrecht et al.), 114
Gonozyme, in gonorrhea diagnosis (Thomason et al.), 28
Gram stain, of endocervical secretions, for chlamydial infection screening (Katz et al.), 103
Guinea pig cytomegalovirus, intravaginal inoculation with (Barron et al.), 41

H

Haemophilius ducreyi, isolation of, Sheffield vs. standard media for (MacDonald et al.), 88
Health education
  and appointment keeping and medication-taking compliance (Blonna et al.), 198
  for young people (Leslie-Harwit & Meheus), 15
Heat shock response, in Types 1 and 4 gonococci (Klimpel & Clark), 141
Hemophiliacs, spouses of, exposure of to human immunodeficiency virus (Andes et al.), 68
Herpes simplex virus infection
  neonatal, national surveillance for (Stone et al.), 152
  type 2
    condom protection from, in vitro evaluation of (Judson et al.), 51
    of Vero cells, with superimposed herpes simplex 2 infection, electron microscopic study of (Pontefract et al.), 74
  viral shedding in, and oral acyclovir (Straus et al.), 107
Homosexuals, male, HIV infection in, risk factors for (Rietmeijer et al.), 95

Human immunodeficiency virus
condom protection from, in vitro evaluation of (Judson et al.), 51
exposure of spouses of hemophiliacs to (Andes et al.), 68
infection with. *See also* Acquired immunodeficiency syndrome
risk factors for
in family planning vs. STD clinic populations (Wasser et al.), 178
in male homosexuals (Reitmeijer et al.), 95
seroprevalence of, in STD clinic population (Cannon et al.), 184

I

Ibuprofen, in murine chlamydial salpingitis (Blanco et al.), 192
Immunofluorescence. *See* Direct fluorescent antibody test
Infection, postabortal, after treated chlamydial infection (Osser & Persson), 84

M

Maryland state prisons, gonorrhea prevalence in (Ellerbeck et al.), 165
Medical records, computerization of (Hart), 1
Medication-taking compliance, and educational intervention (Blonna et al.), 198
Monoclonal antibody direct immunoflourescence, for *Neisseria gonorrhoeae* (Cavicchini & Alessi), 195

N

Neisseria gonorrhoeae
identification of, QuadFERM+ for (Gradus et al.), 57
with Mdal conjugative plasmid,
frequency of (Knapp et al.), 79
tetracycline resistant, transfer frequency of (Roberts & Knapp), 91
phenotypes of, epidemiology of (Bell & Breslow), 118
plasmid-mediated, tetracycline resistant, infection risk factors for (Telzak et al.), 132
Types 1 and 4, heat shock response of (Klimpel & Clark), 141
Neonatal herpes simplex virus infection, national surveillance for (Stone et al.), 152
Nongonococcal urethritis
ofloxacin vs. erythromycin for (Ibsen et al.), 32
quinolones for (Perea et al.), 7
Nonoxynol 9, condom use with and without, in vitro evaluation of (Judson et al.), 51

O

Ofloxacin
for nongonococcal urethritis (Perea et al.), 7
vs. erythromycin (Ibsen et al.), 32

P

Papanicolaou smear, in *Chlamydia* infection diagnosis (Arroyo et al.), 11
Pharyngeal gonorrhea, enoxacin for (Romanowski et al.), 190
Pregnancy, chlamydial infections in, treatment of (McNeeley et al.), 60
Prison population, gonorrhea prevalence in (Ellerbeck et al.), 165

Q

QuadFERM+, for *Neisseria gonorrhoeae* identification (Gradus et al.), 57
Quinolones, for nongonococcal urethritis (Perea et al.), 7

R

Records, computerization of (Hart), 1
Reiter's disease, in Benvenuto Cellini (Anderson), 47
Rwanda, genital ulceration in, etiology of (Bogaerts et al.), 123

S

Salpingitis, chlamydial, clindamycin and ibuprofen for (Blanco et al.), 192
Sexual behavior
as risk factor
for HIV infection, in family planning vs. STD clinic populations (Wasser et al.), 178
multiple dimensions of (Aral & Cates), 173
Sexually transmitted disease clinic populations
HIV infection risk factor assessment in, vs. in family planning clinic populations (Wasser et al.), 178
HIV seroprevalence in (Cannon et al.), 184
Sexually transmitted diseases. *See also specific diseases*
health education for
and appointment keeping and medication-taking compliance, 198
in young people (Leslie-Harwit & Meheus), 15
screening, diagnosis, and treatment of, in family planning clinic, incremental costs of (Begley et al.), 63
Sheffield media, for *Haemophilus ducreyi* (MacDonald et al.), 88
Sulfamethoxazole, for chlamydial infection, in pregnancy (McNeeley et al.), 60

T

Thai men, urethritis in, etiology of (Kuvanont et al.), 137
Therapeutic compliance, and educational intervention (Blonna et al.), 198
Trichomonas vaginalis infection, diagnostic techniques for, comparative evaluation of (Bickley et al.), 127

U

Ulcers, genital, in Rwanda, etiology of (Bogaerts et al.), 123
Urethritis. *See also* Gonorrhea
nongonococcal
ofloxacin vs. erythromycin for (Ibsen et al.), 32
quinolones for (Perea et al.), 7
in Thai men, etiology of (Kuvanont et al.), 137

W

Wet mount, for *Trichomonas vaginalis*, comparative evaluation of (Bickley et al.), 127
